## PRODUCT BENEFITS

### Mesh coating

Scratch-resistant coating encapsulated in a protective stainless steel grid.

### Coated stainless steel

Food sticks less, for easier cleaning\*

\*compared to non coated stainless steel product.

### Safe non-stick coating

As part of our commitment to uncompromising standards of safety, all of our food contact non-stick coatings are free of PFOA, lead and cadmium. Tests are realized by external independent laboratories with stricter controls than those required by current food contact regulations.

### Triply construction

The triply construction (stainless steel / aluminum / stainless steel) ensures perfect searing and even cooking, with 50% better heat distribution than a stainless steel monopoly item\*.

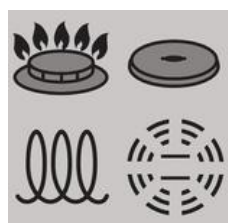

### 10-year guarantee

Master the art of cooking with total peace of mind, thanks to a 10-year warranty covering the very best in rust-proof stainless steel and expert manufacturing. Enjoy maximum robustness, durability and cooking pleasure with no risk of damage over time.

### Riveted handles

Riveted stainless steel handles, for a durable and secure grip.

### All hobs + induction

Compatible with all stovetops, including induction (gas, electric, ceramic, induction), for total versatility.
